Apprentice Plumber of the Year

We are delighted to announce that our Mechanical Apprentice Kevin Bryce has been awarded the **Apprentice Plumber of the Year.**

In only his second year in the apprentice programme, Kevin was nominated by Forth Valley as their selected SNIPEF registered apprentice and we are delighted that he has become this year's winner of **The Best Apprentice Plumber Award** after all the hard work he has put in while learning from our existing Mechanical Division team.

"Kevin is always first to ask a question, get on with his work or complete a practical exercise. He is an asset to his employer and the college and a pleasure to teach"

Forth Valley College

"Kevin always takes on any task with 100% commitment and is neat, tidy and very conscientious. His ability to learn new skills and put them into practice has been great and he has become a real asset to the company. I am delighted his dedication and hard work are being recognised"

Peter Burnett - Director of HF Mechanical

Apprenticeship Programmes

Apprenticeships provide new opportunities for those working towards a specific and relevant qualification. As an apprentice, you are employed in a real job whilst studying a relevant educational course. The core goal of an apprenticeship is for those that take part to have gained the skills and knowledge needed for success in their chosen sector.

Apprenticeships and HF Group

As a group of world-class companies leading the way in next-generation technologies; and all with a family continuity at management level which is rarely seen; we are always looking for quality, talented and enthusiastic new members to our team. Apprenticeship Programmes are incredibly important to us as we are always looking to grow and strengthen our team in Electrical, Mechanical and Fire & Security Sectors.

We offer apprentice opportunities in our Glasgow, Edinburgh, Aberdeen, Manchester and Belfast sites and are very proud of the apprentice programmes we work with as they really do help to give apprentices the opportunities to learn from our existing team.

Find out more

We are always looking for quality, talented and enthusiastic new members to our team and therefore have apprentice opportunities across the country. To find out more, visit our website.
